

This seminar will be run concurrently with the PCI Structural Design Seminar. It will include a joint lunch and joint evening reception that brings architects and engineers together for networking.

PCI and PCI Midwest present—

## Designing with Architectural Precast Concrete SEMINAR

Discover why architectural precast concrete is rapidly becoming the preferred aesthetic and sustainable choice of designers, owners, and builders/developers nationwide.

Don't miss this important seminar that highlights key design concepts from the *Architectural Precast Concrete* design manual, 3rd edition.

### June 9, 2011 — Omaha, NE

### Seminar Overview

This full-day seminar is for architects interested in architectural precast concrete design — including aesthetics, detailing, design economy, loads, sustainability considerations, and other architectural precast issues. Integrated architectural and structural solutions, including total precast, parking structures, schools, health care facilities and military applications are also discussed.

### Continuing Education Credits

Attendees will earn 7.5 AIA/CES (HSW) Learning Units (LU) or 7.5 Professional Development Hours (PDH). A certificate of completion will be provided at the conclusion of the seminar.

### Registration Fee

\$295 - space is limited, so please register early. Attendees will receive a copy of the *PCI Architectural Precast Concrete* manual, 3rd edition; seminar notebook; and additional material. Registration also includes continental breakfast, a joint lunch and joint evening reception with engineers attending the PCI Structural Design Seminar, and breaks. A credit card is required for online registration.

Visit [www.pci.org/archseminar](http://www.pci.org/archseminar) to register and for more information.
